Professional summary

Cloud & DevOps Engineer with 3+ years of experience designing and securing cloud-native infrastructures. Proven expertise migrating systems to Kubernetes, reducing deployment times by 40% and cloud costs by 15%. Skilled in AWS, Kubernetes, Terraform, CI/CD (GitHub Actions, ArgoCD), and monitoring (Prometheus/Grafana). Google Cloud Certified and Fortinet Certified with strong DevSecOps and incident response background. Seeking international opportunities with visa sponsorship.

Assets

Crisis Management

Continuous Learning

Problem-solving & Troubleshooting

Team Collaboration

Skills

Cloud Platforms

AWS (EC2, EKS, S3, RDS, VPC, IAM), Google Cloud Platform (GCE, GKE), Azure, OpenStack

CI/CD & DevOps

GitHub Actions, Jenkins, ArgoCD, Continuous Integration/Deployment, Pipeline Automation

Container Orchestration & IaC

Kubernetes, Docker, Helm, Terraform, CloudFormation, GitOps (ArgoCD)

Security & Compliance

IAM Security, Network Security, Firewall Configuration, VPN (IPSec), ISO 27001, Threat Intelligence

Programming & Scripting

Bash, Python, JavaScript, Go, Infrastructure Automation Scripts

Networking

LAN/WAN Administration, Cisco Networks, pfSense, Network Segmentation

Monitoring & Observability

Prometheus, Grafana, ELK Stack, Cloud Monitoring, Performance Optimization

Work experience

System Administrator

Since April 2023 **NEXAH SARL** Douala, Cameroon

- Architected and executed complete migration of production infrastructure from traditional AWS services to Kubernetes (EKS), implementing Infrastructure as Code with Terraform, resulting in 40% reduction in deployment time and improved scalability
- Designed and implemented automated CI/CD pipelines using GitHub Actions and ArgoCD for GitOps workflows, enabling zero-downtime deployments and reducing intervention by 85%
- Reduced cloud infrastructure costs by 15% through containerization with Docker, Kubernetes resource optimization, and implementation best practices including auto-scaling.
- Strengthened security posture by implementing IAM hardening, network segmentation, IPSec VPN configuration.
- Managed multi-availability zone AWS infrastructure including EC2, RDS (MySQL), S3, VPC configuration, and implemented disaster recovery procedures ensuring 99.9% uptime SLA
- Participated in SOC activities including threat detection, incident response, vulnerability assessments, and security compliance audits

Work experience

IT Intern

From November 2021 to January 2022 **COMETAL SA** Douala, Cameroon

- Administered Windows Server infrastructure including Active Directory, Group Policy management, and user access control
- Implemented automated backup solutions and system performance monitoring, reducing data loss risk and improving system reliability

Network Administrator Intern

From November 2020 to October 2021 **SAUNYA Cosmetics Sarl** Douala, Cameroon

- Deployed private cloud infrastructure using OpenStack, providing scalable virtualization platform for business applications
- Configured pfSense firewall with captive portal authentication, network segmentation, and advanced security rules
- Established datacenter infrastructure with rack servers and Proxmox virtualization cluster for high-availability services

Education

Bachelor's Degree in Network administration and security

From 2021 to 2022 **Institut Universitaire de la Côte (IUC)** Douala, Cameroon

BTS in Network and Security

From 2019 to 2021 **ISTAMA** Douala, Cameroon

CERTIFICATIONS

Cloud & Infrastructure

- **Google Cloud Certified Associate Cloud Engineer (2025-2028)** – Active
- Build Infrastructure with Terraform – Google Cloud Skills Boost
- Build a Secure Google Cloud Network – Google Cloud Skills Boost
- Implement Cloud Security Fundamentals – Google Cloud Skills Boost
- Set Up an App Dev Environment on Google Cloud – Google Cloud Skills Boost

Cybersecurity

- Fortinet Certified Associate in Cybersecurity (Valid until 2027)
- Certified Ethical Hacker – Cisco Networking Academy
- ISO/IEC 27001 Information Security Associate – SkillFront
- Cyber Threat Management – Cisco Networking Academy
- Endpoint Security – Cisco Networking Academy
- CrowdSec Driven Cybersecurity – CrowdSec Academy

DevOps & Automation

- Introduction to Kubernetes LFS158 – Linux Foundation
- Certified Associate in Scrum Fundamentals (CASF) – SkillFront

Networking

- Network Technician Career Path – Cisco Networking Academy
- Network Defense – Cisco Networking Academy
- Network Support & Security – Cisco Networking Academy
